

NEWS RELEASE

JANUARY 8TH 2018

**ALEX STEWART INTERNATIONAL
AUTHORISED
SAMPLER AND ASSAYER
TO THE LONDON METAL EXCHANGE (LME)**

Date: January 2018.

Alex Stewart International Corporation Ltd is pleased to announce that it has now become registered as an authorised Sampler and Analyst (LSA) for the London Metal Exchange (LME).

LSAs are required to sample and evaluate the chemical quality of metals, which are subject to assessment, before a brand is approved. Evaluation must comply with the quality requirements outlined in the LME contract specifications.

LSA's will issue certificates of analysis based upon agreed sampling procedures for metals to be placed on LME warrant where original producer documentation may not be available.

The company is proud to begin this affiliation with the LME and hopes that the relationship will be a long and fruitful one as ASi develop and further expand their portfolio of services to the global metals and minerals markets.
